

### TUC- Maria Bakatsaki, Teaching Mobility at University of Nis

Maria Bakatsaki (teaching and research staff of Technical University of Crete) was at the University of Nis, Faculty of Civil Engineering and Architecture in October 2019.

During my research-based lectures I tried to apply experiential learning techniques to improve the soft skills (leadership, emotional and social intelligence) of master students and PhD candidates of the Faculty of Civil Engineering and Architecture at University of Nis. The students participated with enthusiasm and creativeness to the role playing. I had the chance to experience the joy and full of love culture of serbian people during a fiesta, which I really enjoyed and I made new good friends.
