Training description:	

This document reports the first Training for citizens and public sector of the Erasmus+ Capacity Building in the Field of Higher Education project „Development of master curricula for natural disasters risk management in Western Balkan countries“ (NatRisk), held at the University of Pristina in Kosovska Mitrovica, on the 24th and 25th of April 2018. The training was chaired by Assist. Prof. Jelena Djokic. The objective was to introduce to participants the most relevant issues of natural disasters in Serbia and how to prevent them.

Thirty participants from six institutions were present at the two-day training. The participants were officers for Water supply, Environmental protection, and urgent situation Departments from four municipalities in the North of Kosovo*: Municipality of Zvecan, Municipality of Leposavic , Municipality of Zubin Potok, and Municipality of Kosovska Mitrovica. Also, some ten employees from the Fire Brigade of Mitrovica have attended the trainings.

First day

After the participants' registration which started at 09:30, Nebojsa Arsic, dean at the Faculty of Technical Sciences, welcomed the participants, presented the NatRisk project and achieved results.

According to the defined agenda, Jelena Djokic presented the natural disasters in North of Kosovo*. After the lunch break, the training was continued with the information on specific types of disasters: Earthquakes as natural disasters; sliding, rockfalls and erosions as natural disasters; Floods and drought as natural disasters; Epidemic Wild fires.

First day finished at 17:00.

Second day

Srdjan Jovic introduced Normative–legal, responsible officials and institutions. He also gave the guidance on the methodology for the development of vulnerability assessment and emergency response plans and rescue plans.

Nebojsa Arsic has presented the presentation on measures for preparedness in case of natural disasters. Pre-disaster studies, measures, and activities for reduction of natural disaster consequences

After the lunch break Nebojsa Arsic has coached the workshop on Action plans for early warning, reactions and first aid planning in case of natural disasters.

Second day finished at 17:00.

Results of evaluation the general participant expectations

Description

Overall impression was excellent, but the most of the trainees are not used to have interactive trainings, with active participations. There are also some remarks on the tempo and durations of the sessions. That will be taken into consideration for the following events, considering the fact that the audience was not made of academics. On the other hand, practical work was highly appreciated.
